

TRUCKCLAWS™ II Extender Bars

TruckClaws™ II Extender Bars Installation Instructions

Important: Read all warnings and instructions that came with your TruckClaws™ II kit prior to use. Never install your extender bars on the front wheels of any vehicle. Do not install the extender bar unless you have attempted to get your vehicle unstuck with TruckClaws™ II alone. In order for the extender bar to work properly TruckClaws™ II must be in the tightened position which happens when TruckClaws™ II have been installed and tried without the extender bar.

Extender Bar Installation Instructions.

Step 1-Align the edges of the extender with the guides in the traction plate (figure 1.).

Step 2- Slide the extender bar into the guides on the traction plate until it stops (figure 2.).
